

# Appendix B

## Latin American Model

1. Shown here is the urban land use model of a typical Latin American city.
  - a. Identify and describe TWO ways in which the model is similar to models of North American cities.
  - b. Identify and describe ONE feature that differentiates land use in a typical Latin American city from one of the North American models.

- Key:
- a. Commercial
  - b. Industrial
  - c. Elite residential sector
  - d. Zone of maturity
  - e. Zone of in situ accretion
  - f. Zone of peripheral squatter settlements
  - g. Gentrification
  - h. Middle-class residential
